Background

Pearl Embroidery was incorporated in Karachi, Pakistan in the year 1990. The operation started with just one multi-head embroidery machine, During the past decade the company has achieved steady progress through a team of component and industries. Professional at different levels.

The Facilities

The company now has a total of 55 multi-head embroidery machines with its own digitizing system and a fully integrated production facility with enable us to provide all the services under one roof to our values customers. Moreover we also process an in-house dye-cutting devise which makes self-reliant to provide faster and more dependable service. We are a versatile until and can effectively do embroidery work on various materials. Such as Hosiery, Leather, Fleece and Woven and also produce emblems, Logos and patches etc.

The Customers

We firmly believe that it is not so much the quantity but the quality that is more important. To achieve guaranteed and matchless quality, we have well trained Quality Supervisors who are responsible for every piece which is being embroidered. This enduring and strong commitment to quality enables us to build up an enviable long list of satisfied clients in the field of Textiles, Garments and Apparels.

The Vision

We shall continue to provide highest quality products to our customers by sheer devotion & dedication and by maintaining:

- An effective quality management system with employee involvement, motivation, training and innovation.
- Ensuring in time deliveries and Keeping abreast of latest technology
- Proper communication to understand & meet their specific requirements.

The Facilities

We have received close cooperation from our hard working team, suppliers and all esteemed clients in our steady progress and growth over the years and we salute them.
